

About Linkcode Technologies

Linkcode Technologies mission is to help bridge the knowledge gap by ensuring that students get access to quality tutoring at affordable pricing. VeritEd leverages technology and an army of passionate tutors to help students learn successfully.

Why students choose Linkcode Technologies?

Exciting Mission

VeritEd's mission excites many of our tutors and aligns with their interests in ensuring that the knowledge gap is bridged for students so they can get a fair chance at life

Relentless Passion

Our tutors are very passionate about teaching and transferring knowledge. They recognize the challenges that students face and are driven to help ease those challenges

Unique Opportunity

VeritEd offers a unique opportunity for tutors to do well and do good. It's a win-win for the tutors and for the students

Committed Team

VeritEd attracts tutors with a common goal to make meaningful and lasting learning impact for every student

Chance to Pay it Forward

Our tutors recognize the power of well-prepared students to improve the lives of their families and community. Helping students learn prepares the students for the great future the students will create

Lasting Impact

Tutors at VeritEd are aware of how pivotal they are in helping students learn and grow, and so our tutors gladly welcome the opportunity to mentor, guide and coach students through their academic journey.

“ We are busy parents who recognize the importance of supplementary tutoring for our kids. Linkcode Technologies provides that opportunity for our kids and for us.

Student

“ I am a single parent working many hours and raising a daughter. I knew I needed help with my daughter so I started her up with a Linkcode Technologies tutor, who later became her mentor and another positive reinforcing influence

Student

“ My Linkcode Technologies tutor explained concepts to me using examples that I could understand and easily relate to. Learning is so much fun now.
